How we calculated this figure

$$\text{The CIL Total Area Charge} = \text{Chargeable Area (A)} \times \text{Rate (R)} \times \text{Index (I)}$$

The Chargeable Area is the gross internal area of the total development less the floorspace of any existing buildings which are eligible deduction.

To be eligible for deduction, the existing buildings must be situated on the relevant land on the day planning permission first permits the chargeable development and be 'In Use'.

A building is defined as being '**In Use**' if part of the building has been in continuous use for a period of at least six months within the period of three years ending on the day planning permission first permits the chargeable development.

The charge will be index linked based on the following formula:

I_p/I_c where I_p is the index figure for the year in which planning permission was granted and I_c is the index figure for the year the charging schedule took effect (2012), using the national All-in tender price index published by the Building Cost Information Service (BCIS).

New liability notices may be issued

Any change in the details contained in this notice which affect the calculation of the chargeable amount will lead to the Council issuing a new liability notice. Changes requiring a new calculation of the chargeable amount may arise from:

- A change to the liable party.
- Granting of a Community Infrastructure Levy relief.
- Any existing buildings deducted from the CIL-liable floorspace are subsequently found not to

have qualified as being 'In Use' (defined above) for a continuous period of at least six months within the period of three years ending on the day planning permission first permits the chargeable development.

Please note it is your responsibility to notify us if:

- There is a change in the liable party. In this case, please complete a [Withdrawal of Assumption of Liability form](#) and or a [Transfer of Assumed Liability form](#).
- The liable party's contact details change.
- There are any changes in the floorspace details involved in the chargeable development. In this case, please submit a new [CIL Additional Information Form 1](#).

Are you eligible for relief from CIL?

Relief is not offered.

When will this CIL amount be due for payment?

If the payment procedure is followed correctly, this CIL amount will be payable in the following manner:

You must notify the London Borough of Brent of the date on which you intend to commence development by submitting a valid [Commencement Notice](#).

Payment of the CIL chargeable amount will be due in full on the day that development commences. If a valid commencement notice has not been submitted before development commences, payment of the CIL amount will be due in full on the day that the collecting authority believes the development to have commenced. Interest and surcharges may also be applied.

Some or the entire CIL chargeable amount may also be paid by transferring land to the CIL charging authority or another beneficiary agreed with the charging authority. Please see the Planning Portal note on [Paying CIL in the Form of Land](#) for further information.

Consequences of non payment

If you fail to follow the payment procedure described above, the collecting authority may impose surcharges on this liability. Persistent failure to pay CIL liabilities due may result in the collecting authority imposing surcharges, serving a CIL stop notice prohibiting further development on the site and/or taking action to recover the debt due. Please see the document guidance by the Department for Communities and Local Government on [how payment of the Community Infrastructure Levy is enforced](#) for further information.

The amount of CIL liability in this notice is a local land charge

This CIL liability has been registered as a local land charge against the land affected by the planning permission in this notice. This charge will be cancelled on full payment of this liability.

Do you think we have made a mistake in our calculations?

You can ask us to review our calculation. If you are unhappy with the calculation following this review, you can appeal to the Valuation Office Agency. Please see the Planning Portal note on the [Appeals Procedure](#) for further information.
